

**Anna Miller**, a creative and persistent changemaker, has motivated the world to consider various ways in which communities can be more inclusive to those with disabilities or who need extra help. More specifically Anna's project focuses on inclusion for all in technology. She uses her online platform to share motivational videos on multiple different subjects including voter rights, inclusion in tech, women's history, and blogs about her travels with disabilities. Anna puts her heart and soul into this and works at least 5 days a week to grow her project.

**Armita Hosseini** is the creator of multiple projects which aim at increasing financial economic education worldwide. She saw a problem in the current economic education and immediately set her sights on fixing it. She wrote "Roadmap to financial literacy", a four chapter roadmap that has even been sold on Amazon. After this she then began EmpowerEcon, which started as a one time camp, but became a project where students met with mentors multiple hours a week to learn about finance and economics.

**Axel Perez**, the creator of Simply Axel, has a focus on providing leadership opportunities to underprivileged students and students from low-income communities. Simply Axel serves as a leadership group, podcast, and community to inspire self-discovery by encouraging students to live, lead, and inspire. He has trained leaders with his Empower Wholehearted curriculum that uses a hands-on approach in the field. Students that have gone through this course have seen significant results in their leadership abilities.

**Donovan Beck** is an artist who harnesses his creative side to create poetry that has touched the lives of many. His creative side blossomed in high school where he began to work with mental health initiatives. He mainly uses Tiktok to connect with thousands of individuals who are also struggling with mental health. Donovan has partnered with non-profits and is excited to continue spreading his work in various projects to come.

**Hurshneet Chadha** created Project Smile AZ which is just as happy as it sounds. All children of any background can participate in engaging smile makers on social platforms. Project Smile AZ started during the pandemic when Hurshneet began making handmade cards for COVID-19 patients. Over 1000 volunteers have joined him across the world. Project Smile AZ has raised over \$4000 for Phoenix Cancer support network and continues to work hard everyday.

**Voices of Gen-Z**

**Saanvi Shetty and Shreya Karnik**, creators of Voices of GenZ, sparked a multidimensional change on social media through visual, audible, and written forms of media. Voices of GenZ has given over 200 students with different life experiences a platform to share their stories with a wide audience. Saanvi and Shreya have utilized her project to advocate for change and spotlight underrepresented or marginalized groups.
